

## Waterra Power Pack

The Waterra PowerPack PP1 provides the mechanical actuation for pumping with inertial pumps to depths of over 60m, in a fully portable, single operator power unit. At 13 kg, the PowerPack PP1 provides outstanding pumping performance and is also so compact that it fits into a back-pack frame, but is still powerful enough to pump from a depth of 60m.

### Features

- Fully adjustable
- Back-Pack frame for easy transport
- Adapts to almost any casing or casing protector
- Anchored discharge end facilitates sample collection
- reduces fatigue when purging

### Accessories

- Nitrile Gloves
- Surge Block
- Foot Valves
- Polyethylene tubing
