

WTW pH 330i Meter Kit

pH/mV/Temp Meter

A robust and waterproof battery-operated pH/mV meter with built in datalogger and real-time clock. Optimized for on-site and field use, but also can be used in the laboratory.

- simultaneous monitoring of pH and temperature
- SenTix 41 pH/Temp combination electrode with 3m cable

Specifications

pH Range/Resolution

-2.000 ... +19.999; -2.00 ... +19.99

Temperature Range/Resolution

-5.0 to +105.0 °C

pH Accuracy

+/- 0.005 at +15 ... +35°C

mV Accuracy

+/- 0.3 at +15 ... +35°C

Temperature Accuracy

+/- 0.1K

Cable Length

3 ft.

Power

4 x 1.5 'AA' batteries

Applications

- Aquarium water
- Drinking water
- Wastewater

- Groundwater
- Mineral water
- Salt solutions
- Soil extracts

Kit Contents

- Meter
- Combination pH/temperature electrode
- Carrying case
- Manual
- Extra batteries

Accessories

- Calibrations buffers and standards
- Kim Wipes
- Rite in the rain paper and notebooks
- Nitrile gloves
- Disposable cups
